

## Core Team

# Stepping Stones

This is the third in a 4-part series of articles explaining the reasons for the next phase of St. Joseph Building Plan. Check the parish website, [www.sjfay.com](http://www.sjfay.com), for pertinent info or to email a question to the Core Team.

## Why Parish Religious Education Space?

The number of young people in Religious Ed has nearly doubled since 2005! Great job! On any given Sunday the kids are packed in like sardines. The space need for Parish Religious Education (PRE) is huge. Already, there are two sessions offered, and classrooms, office, library, etc. are all utilized. Adults who meet do not have an "adult space," with big chairs or even couches. With the total number of youth at 450, there is nowhere that the whole group is able meet together. Accessibility is a problem for those with any kind of disability. And imagine the supplies required to run a program of this size. Where do you keep them? Right now, any nook and cranny you can find. Storage space is on everyone's wish list.

You'll learn more later.
