Stepping Stones New Church Update

On September 26th, our St. Joseph team met with our architects Michael G. Imber and Core; Nabholtz; City of Fayetteville representatives; and mechanical, electrical, and plumbing consultants for a 50% review of construction documents. These documents are detailed instructions for building our new church. Once these are completed in late November, they will be used to generate bid documents. We expect to start the construction bid process by the end of this year and to break ground in the winter of 2024.

Building Fund Balances as of September 30, 2023

Capital Campaign:

Total pledged at the close of the formal campaign was \$7,167,138.11. At the end of September, \$4,847,688 had already been collected. It's exciting to see more than 65% of the original pledge amount already paid within 35% of the pledge period. We are also grateful for the contributions given in our building fund collection on the 2nd collection of the 2nd Sunday of each month. The money that we have in savings is earning **5.95%** interest, making early pledge payments even more effective.

Thank you for your generous support!
