

## The Power of a Pledge One Year Pledge Extension

Please prayerfully consider extending your current monthly or annual Capital Campaign pledge for one year -through 2027- to help us build not just the base plan of our church, but to add a bell tower and other enhancements at today's prices.

***"Not that I seek the gift; but I seek the fruit which increases to your credit." Philippians 4:17***

By extending your current pledge for one year, you will join fellow parishioners in making a more meaningful difference:

- In building our faith
  - In building our future
    - In honoring our past
      - To be more involved
      - To be more invested in our mission statement
    - To grow spiritually
  - To add enhancements at today's prices rather than future prices

It's not just about the numerical increase, but also about the deepening of faith and other positive spiritual gifts that emerge from our acts of giving. The power of a pledge helps us remember that all we have comes from God and enables us and our parish to continue spreading the word of God today and in the future. A pledge is a lifeline for parish growth.

### Why does my church keep asking for money to build a church?

Consistent income allows us to plan ahead and to:

- ❖ Build more now including some enhancement at today's cost rather than push them to future construction with increased building costs.
- ❖ Get a loan and approval to build from the diocese. The diocese requires that we have 80% of the project's cost in pledges, cash on hand or other assets.

**All money donated to build a new church is in a separate account and will go towards our new church.**

**Thank you for your past generosity!  
Your continued donations are deeply appreciated!**
